

# EcoTimber® Vintage Oak

Prefinished Engineered  
Single-Strip Flooring

Healthy forests. Healthy homes.  
ecotimber.com

## FEATURES

- Gorgeous rustic appearance with 7-1/2" face widths
- High-tech commercial-grade finish system
- Hardwood core provides superior stability
- Thick, resandable hardwood wear layers offer a lifetime of use
- Can be nailed down, glued down, or floated
- Lifetime structural warranty, 27-year residential finish warranty

## ECOTIMBER MONEY-BACK ENVIRONMENTAL GUARANTEE

*EcoTimber backs this product with a 100% money-back guarantee that a minimum of 70% of the wood in this floor was responsibly harvested from FSC-Certified forests*

## ENVIRONMENTAL BENEFITS

- Certified according to the rules of the Forest Stewardship Council (FSC), adhering to strict environmental and social standards
- Using FSC-certified wood promotes sustainable forestry and helps prevent the conversion of forest ecosystems into tree plantations and developments. The FSC is supported by many leading environmental organizations
- Healthy for the air in your home, this floor is made with a non-formaldehyde adhesive, and easily meets the E1 and 2012 California Air Resources Board (CARB) standards for indoor air quality

## SPECIFICATIONS

### Dimensions

9/16" thick x 7-1/2" wide x random lengths (24" - 86-1/4")

### Construction

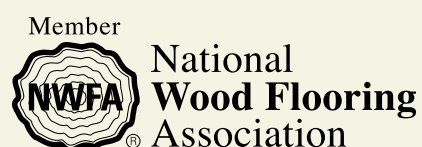

Engineered 3-ply with 1/8"+ wear layer over hardwood core, kiln-dried, tongue & groove all four sides, beveled edges

### Finish

Satin sheen UV-cured acrylated urethane finish with scratch-resistant hardened acrylic top-coat

### Installation

Nail-down, glue-down or float. Not warranted over radiant heat systems

All wood floors need a moderate amount of humidity. If the humidity level in your building will drop below 30%, a whole-house humidification system is highly recommended. At levels below 30%, cupping or cracking may occur and would not be considered a manufacturing defect.
